

SmartLights

```
classDiagram
    SmartLights --> "1" modules
```

A UML class diagram showing a directed association from the SmartLights class to the modules class. The SmartLights class is represented by a light purple rectangle with a black border. The modules class is represented by a white rectangle with a red border. A black arrow points from the bottom of SmartLights to the top of modules, with the number '1' placed near the arrowhead.
